QUIK-FAB TABLES

Table Specifications

- 16mm CNC Precision Laser Cut Holes
- 50x50 hole pattern
- Uncoated top in 350g mild steel
- +/-0.5mm Flatness
- Tabletop plus supporting frame.

Table Options

- Tabletop Thickness options 12mm & 16mm
- Precision Fibre-Laser Cut tabletop with Custom hole design to achieve ultra tight insert tolerance
- Feet options Include Standard levelling feet or heavy duty Castors with integrated levelling feet.

QUIK-FAB ATTACHMENTS

Corner Stop - 160x135mm

- 12mm x 160mm x 135mm
- 90-Degree Corner Stop
- Perfect for jiggling square frames in Ultra Quick Time
- Uses 50*50 Hole Pattern & Slotted Fixture For Maximum Adjustability

Slotted Stop w/Adapter end

- 12mm x 235mm with 150mm Slot
- Adapter End so insert-a-clamp can be attached
- Fixes to Table Using CNC Machined Stainless Steel inserts
- Used to position end of parts
-

Slotted Stop- 185mm

- 12mm x 85mm with 150mm Slot
- Fixes to table using CNC machined stainless steel inserts
- Used to position end of parts

QUIK-FAB ATTACHMENTS

Insert-A-Clamp Professional

- Our professional range clamp.
- 200mm x 120mm (height v reach)
- Includes quality CNC machined stainless steel insert
- Machined 0.05 Undersize to table hole for ultra snug fit & minimal slop

Angle Bracket Standard & Large

- 300mm x 220mm 90-degree clamping bracket
- Fabricated using 12mm precision laser cut plate
- Fixes to table using CNC machined stainless steel inserts
- Post-Fabrication Machining: Angle brackets undergo precision machining after fabrication to eliminate any distortions from the welding process.
- True 90° Accuracy: Ensures exact 90-degree angles for optimal alignment and structural integrity.
- Precision & Consistency: Machining guarantees uniformity across all brackets, enhancing fit and performance in assembled structures.
- Enhanced Quality Control: Reduces deviations that may arise from fabrication, ensuring high tolerance and repeatability.

Vice Mounting Plate

- Use your standard vice anywhere on the table.
- Attaches using CNC machined stainless steel inserts allowing maximum flexibility & quick set up

QUIK-FAB ATTACHMENTS

Fastener Kit

- Fastener kit for locking down inserts to table
- Kit comprises of 20 flanged bolts and nuts

Stainless Steel Inserts

- CNC machined stainless steel inserts
- Fit attachments quickly and accurately to any part of the table
- Kit comprises of 10 machined inserts

Attachment Kit

- Full attachment kit to make any repetitive fabrication job accurate and efficient
- Kit includes;
- 5 X standard angle brackets
- 5 X large angle brackets
- 1 X vice mounting plate
- 5 X slotted stops
- 5 X slotted stops- adapter end
- 5 X corner stops—standard
- 10 X insert-a-clamps
- 20 X standard machined inserts
- 4 x machined inserts (for vice)
- Kit includes 20% discount
